

Components of the Standards

Here are some things to look for in these standards:

1. The *Wisconsin Standards for Music* focus on the artistic processes of Create, Perform, Respond, and Connect. These are inspired by the *National Core Arts Standards* (2014).
2. The *Wisconsin Standards for Music* are organized by grade bands: K-2, 3-5, 6-8, and 9-12. This allows for some flexibility in instruction and greater differentiation for the support of students over time. All levels identify *proficient* for the older grade level in that band. Supplemental materials providing additional levels, such as those in early childhood and for advanced music levels, are being investigated to support this work at a later time.
3. There are four music standards identified for grades kindergarten through 12. These conceptual ideas take into consideration the current *Wisconsin Model Academic Standards for Music* (1997) and the *National Core Arts Standards* (2014), as well as other state examples available and reviewed by the writing team.
4. The overall concept for the music standards provide **what students should know and be able to do** in the identified grade bands. Performance indicators provide additional ideas to support the standards. The performance indicators allow for flexibility for educators and school communities to identify more specific elements through their own curricular development. This document focuses on the **what** (and not the **how**) a learner will know when they reach the identified performance indicators. This set of standards does not prescribe specific strategies or knowledge sets or music examples, *but rather allows the school community to identify these areas through their own music curriculum plan.*

Music Strands

The two strands differentiated within the standards are defined as General Music and Performance Music. These are defined in the following ways:

- **General Music** indicates those formal courses exploring music in a non-performance setting. These would include standard “general music” classes, theory (including IB and AP), music composition and improvisation, history, harmonizing instruments, music technology, and any other focus in grades kindergarten through 12.
- **Performance Music** identifies formal courses in grade bands 6-8 and 9-12 that have a focus on actual public music performance. These can include any type of performance-based class such as traditional bands, choirs, orchestras, ethnic

ensembles, jazz performance, small ensembles, solo performance (again including IB foci), and other ensembles utilizing instruments and/or vocal combinations in performance.

Both strands investigate the standards of **Create, Perform, Respond, and Connect**. Performance Music has four additional performance indicators for grade bands 3-5, 6-8, and 9-12. These indicators provide additional opportunities for students to explore and master formal skills and knowledge in specific performance classes in these grade bands.

Standards Structure

The *Wisconsin Standards for Music* follows a structure similar to all Wisconsin State Standards.

 e = elementary (K - 2nd Grade)
 i = intermediate (3rd - 5th Grade)
 m = middle (6th - 8th Grade)
 h = high (9th - 12th Grade)

Standards Formatting

- **Standard:** Broad statement that tells what students are expected to know or be able to do.
- **Artistic Process:** Breaks down the broad statement into manageable learning pieces.
- **Performance Indicator by Grade Band:** Measurable degree to which a standard has been developed or met.

Grade Bands

Grade bands of K-2, 3-5, 6-8, and 9-12 align to elementary, intermediate, middle, and high school levels.

- Grade bands K-2 and 3-5 indicators share knowledge and skills that should be integrated throughout the elementary curriculum.
- Music education should be part of the curriculum for all grade band 6-8 students with opportunities in general music, vocal, and instrumental music. The two strands of general and performance identify skills and knowledge for these areas in middle school.
- Music education at the 9-12 grade band level continues to develop student foundational understandings of music.
- Performance indicators for more in-depth music learning expectations for high school students with aspirations toward careers and postsecondary studies in the music industry are listed within the appendices. They are foundational for all students, and, certainly, many students will display higher levels of proficiency in music performance.
